**APPOINTMENT**

2022            **London School of Economics and Political Science (UK)**  
Assistant Professor in Finance

**EDUCATION**

2016 – 2022    **Columbia University, Columbia Business School (USA)**  
PhD in Finance and Economics  
MPhil in Finance and Economics (GPA 9.3 out of 10)

2018 – 2020    **MIT, Economics Department and Governance Lab (Kenya and Online)**  
Courses in Development Economics

2012 – 2015    **European Business School (Germany)**  
BSc in General Management (Top 2%)

2014            **National University of Singapore (Singapore)**  
Exchange Semester

Other            GMAT 770 (Top 1%)

**RESEARCH INTEREST**

Finance and Development, Household Finance, Banking, Corporate Finance

## **JOB MARKET PAPER**

### **Bank Presence and Health**

*Featured on the [World Bank Development Impact Blog](#)*

This paper demonstrates that increasing bank presence in underserved areas can substantially improve households' health. I apply a regression discontinuity design to a policy of the Reserve Bank of India. Six years after the policy introduction, treatment districts have 19% more branches than control districts. Households' probability of suffering from a non-chronic disease in a given month is 36% lower. I show evidence that two understudied aspects of banking play a role: banks provide health insurance to households and credit to hospitals. In equilibrium, I observe an increase in health care demand and supply.

## **PRESENTATIONS**

- |      |   |
|------|---|
| 2023 | AEA, Boulder Summer Conference in Consumer Financial Decision Making, CEPR Advanced Forum for Financial Economics, German Center for Development Research, NTU Singapore, NUS Singapore, Rome Junior Finance Conference, SAET Paris, SFS Cavalcade  |

## WORK IN PROGRESS

### **Health Insurance Subsidies and Asymmetric Information: Experimental Evidence from Kenya**

Co-authors    Lorenzo Casaburi (University of Zurich) and Jack Willis (Columbia University)  
Stage            Funding secured (USD 900,000), IRB approval obtained, research started

Health insurance products often suffer from low demand at commercial prices. Should they be subsidized? On the demand side, this depends on how subscribers benefit from insurance and whether their demand is too low conditional on price. On the supply side, subsidies may affect costs of insurance providers due to asymmetric information. Working with an innovative financial company in Kenya, we conduct a suite of randomized control trials. We evaluate the impact of health insurance on subscribers, and we test for the effect of subsidies on selection into insurance, moral hazard for marginal subscribers, and sunk cost effects for inframarginal subscribers.

### **Peer Effects in Deposit Markets**

Co-author        Naz Koont (Columbia University, PhD Student)  
Stage            [Paper available](#)

We provide first empirical evidence that consumer peer effects matter for banks' deposit demand. Using a novel measure that depicts for each county how exposed peers are to a specific bank in a given year, we tightly identify the causal effect of peer exposure on deposit demand through a fixed effects identification strategy. We address key empirical challenges such as time-invariant homophily. We find that a one percent increase in a bank's peer exposure leads to a 0.05 percent increase in deposit market share. This effect has become stronger over time with the rise of the internet and social media, which facilitate cross-county communication. Peer exposure is especially relevant for smaller banks and customers that have access to the internet.

## **GRANTS AND AWARDS**

2021	PhD Student Prize. CEPR European Conference on Household Finance
2021	Research Grant. Wheeler Institute for Business and Development
2020	Research Grant. Jerome A. Chazen Institute for Global Business
2020	Research Grant. Bernstein Center for Leadership and Ethics
2020	Best Paper Award. 4th Year PhD Competition, Columbia University
2016	Doctoral Fellowship. Columbia University

## **REFEREE ACTIVITIES**

Journal of Finance, Review of Finance

## **PROGRAM COMMITTEE MEMBER**

SFS Cavalcade 2023 (UT Austin), 18th Annual Conference on Corporate Finance 2022 (Washington University in St. Louis), FMA Global Conference in the Middle East 2022 (Zayed University), SAFE Household Finance Conference 2023 (Leibnitz Institute for Financial Research)

## **DISCUSSIONS**

Microequity and Mutuality: Experimental Evidence on Credit with Performance-Contingent Repayment. Francesco Cordaro (EOM), Marcel Fafchamps (Stanford), Colin Mayer (Oxford), Muhammad Meki (Oxford), Simon Quinn (Oxford), and Kate Roll (UCL)

Acquisitions, Management, and Efficiency in Rwanda's Coffee Industry. Rocco Macchiavello (LSE) and Ameet Morjaria (Kellogg)

Refinancing Inequality During the COVID-19 Pandemic. Agarwal (NUS), Chomsisengphet (Office of the Comptroller of the Currency), Kiefer (FDIC), Kiefer (Freddie Mac), and Medina (Texas A&M University)

## **AFFILIATIONS**

Center for Development Economics and Policy (CDEP), Columbia University

## **TEACHING**

Capital Markets and Investments (TA, MBA Course Columbia University)

Intensive Applied Research (TA, Master Course Columbia University)

Microeconomics (TA, Master Course European Business School)
